

Dual Shaft Surface Slitting Rewinding Machine

Dual Shaft Surface Slitting Rewinding Machine is one of our best seller model for multi-purpose surface type slitting rewinding machine for different Metal foil, Laminated film, nonwoven cloth fabrics, self adhesive sticky label, aluminium foil, insulation film, craft paper, PET film, plastic film, Photographic materials etc. It is designed for installed with dual shaft slitting rewinding knife system, cycle ring knife, and razor blade cutter for catering the different material features. As option, we can provide imported pneumatic knife for very simple set up for the different slitting width if the product width is often change. After our machine slit&rewind, the finished roll results very smooth and neat in edge.

Horizontal design with 2 shaft rewinding roll, it is with automatic photoelectric tracking, rectifying device, host, traction, strong break system by magnetic powder device. Automatic tension control system, automatic meter counting unit and wastage collection device.

Main Parameter:

Model	PPD-QFA/700	PPD-QFA/1100	PPD-QFA/1300
Max Mother Roll Width	700mm	1100mm	1300mm
Max Mother Roll Diameter	800mm	800mm	800mm
Max Rewinding Roll Diameter	600mm	600mm	600mm
Max Machine Speed	160m/min	160m/min	160m/min
Total Consumption Power	4KW	4KW	5.5KW
Machine Net Weight	2000kg	2200kg	2500kg
Machine Dimension	2500×1900×1350 mm	2500×2300×1350 mm	2500×2500×1350 mm
Minimum Slitting Width	Round Blade: 30mm	Razor Blade Cutter : 10mm	

Note: Different specification is acceptable for customized manufacturing.
